Hot Water Bottles.

We don't claim that the Esquimo uses a hot water bottle but he would if we were running a drug store in Greenland; because we would call his attention to our complete line of these goods at bottom prices. We are liable to have some Arctic weather this winter—cold enough to make people think they're on an iceberg. It will be a good time then to think of our hot water bottles.

—Mr. Frank Mattox has sold his tailoring business to Devoland Morganstern and will locate in Nelsonville, Athens county.

—The full confession (?) of William Roe, who was convicted of first degree murder in Napa county, California, appears in the San Francisco Examiner of last week. It is the tale of a liar or a maniac. Roe claims to have murdered almost every person he ever met. His story is no doubt a clever attempt to escape punishment for a crime he did commit by making the plea of insanity.

—Miss Rose Weekley and Mrs. Lancaster, of Parkersburg, were in the city Monday evening to attend the organ recital at the M. E. church. While here they were guests of Mr. and Mrs. John Kaiser.

—The resignation of Rev. Jonathan G. Smith, who was called to the pastorate of the Harmer Congregational church about a year ago, has created somewhat of a sensation in church circles. Mr. Smith's resignation was tendered Sunday, subject to the decision of the church, which will probably be rendered on Wednesday of next week. Rumors of dissatisfaction in the congregation are supposed to be the cause of his action.

—Maurice Coste was hunting yesterday and got twelve rabbits.

—Miss Gay Stacy, eldest daughter of Mr. and Mrs. J. E. Stacy, of Rainbow, was married Monday, the 23d, to Mr. Fred Moore, of Columbus. The date of this marriage was the 25th anniversary of the bride's parents, and its occurrence was a surprise to their friends who will wish them much happiness.

—The Junior Order United American Mechanics will meet this evening for the transaction of important business. All members are requested to be present.

—The Argand Refining Co. is out with a brand new wagon.

—Mr. and Mrs. A. D. Follett entertained the Junior club very pleasantly last evening. George Du Maurier was discussed.

—De Leon's Comedians rendered "Old Kentucky Home" at the Auditorium last night to a splendid audience, every seat in the house being filled. The entertainment gave good satisfaction, the few specialties introduced being very entertaining. The program for tonight is the comedy-drama "Ranch King".

—The prevalence of throat affections designated as tonsillitis membranacea, croup and diphtheria, all of which are infectious, is a cause for considerable uneasiness. It is not out of place to repeat the oft-printed warning that every case of this nature should be reported at once to the health officer that proper precautions may be taken. Epidemics of diphtheria usually flourish through carelessness.

—Common pleas court opened Monday with the divorce case of Martin Miller vs. Lizzie Miller and the taking of testimony occupied the entire day. The ground upon which the plaintiff seeks separation is willful absence for three years.

—Salzman's machine shop, on Ohio street, which for five weeks has been shut down, putting in a new boiler, is again running full tilt, having started up Saturday. The boiler is one made by the Marietta Boiler Works, which of course insures it to be a good article.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last for hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results."

Sometimes when the last spark of life seems almost extinguished it is fanned into flame again by prompt, vigorous action. It is a mistake, however, to put off action too long; another mistake is to despair too easily. Both these mistakes are made in dealing with disease, particularly with consumption. It is neglected at first until someone names it. Then the name strikes terror to the mind; the nature of the disease is misunderstood: it is a blood disease, settled in the lungs. If it settled somewhere else, the doctor would give it a different name:—scrofula, kidney disease or "liver complaint." But the name only tells where it settles. It is really all one disease:—*Bad Blood*; and there is only one cure:—*Good Blood*. An abundance of good, rich, red, blood put into the circulation, cures every one of these complaints, consumption as well as the rest. If it has gone too far, it is on this true physiological principle—fully proven by experience—that Dr. Pierce's Golden Medical Discovery cures Consumption and all other blood diseases. It tones up the blood-making organs to produce a fresh supply of healthy, red blood; this carries new nourishment and life to the wasted lung tissue; or any other tissue that is affected. It drives out the poisonous disease germs which clog the skin, liver or kidneys. It is simply a question of purifying and building up; where there is anything left to build on the "Golden Medical Discovery" will infallibly build up and cure. It cures cases which doctors declare "incurable." That word has lost its meaning since Doctor Pierce's wonderful "Discovery." The plain and hopeful truth about disease is shown in the light of the best science of the century in Dr. Pierce's Common Sense Medical Advice. It is a volume of 300 pages; illustrated. It also contains letters from many who have been rescued from consumption. This great book is free, if you send 21 one-cent stamps, to cover cost of mailing only, to World's Dispensary Medical Association, Buffalo, N. Y.
